Subject: OCP Amendments

Mayor and Council,
Please consider delaying Bylaw No. 2528 – WCW Plan, which is included in the upcoming 2026 amendment to the Official Community Plan.

https://pub-rmow.escribemeetings.com/filestream.ashx?DocumentId=26309

With the two current proposed amendments there would be 4500 bed units added to the OCP.

Page 3:
'Policy 4.1.2.9.(b) allows for up to 1,000 additional bed units for various initiatives to address Whistler's current shortage of employee housing.

Of the "1,000" bed units to be allocated to support employee housing initiatives, there is a remainder of approximately 223 bed units. This remainder is already exceeded by the current private sector employee housing-related rezoning applications under review and potential future anticipated RMOW housing initiatives. To continue to support employee housing initiatives in our community, this policy needs to be amended.'

I support implementing Policy 4.1.2.9 as a 'housekeeping' OCP amendment in 2026, as most of those 1000 bed units have already been allocated to support employee housing.

I do not support:

Page 4:

'Bylaw No. 2528 – Whistler Creekside West (WCW) Plan
The full implementation of the WCW Plan is estimated to require 3,500 bed units in addition to Policy 4.1.2.9 (a).'

As you know, a larger reassessment of our OCP, and the vision and values we want for our community, will be initiated within the next two years.

Please delay Bylaw No. 2528 – WCW Plan with the corresponding addition of 3500 bed units to the OCP. Instead make this potential addition of bed units part of the larger upcoming OCP review so that the community has more opportunity to take part in the vision and values as we address Whistler's future growth as a whole.
